Specialist Paints

Jawel Paints are well known for supplying car paint and various ancillary items required for respraying vehicles. We also supply a range of very specialist paints for specific reasons, such as anti-graffiti paint and vinyl paint commonly used in painting curtain sides on commercial vehicles.

One of the growing demands is for a specialist paint for painting UPVC windows and doors, which is now available by using our 2K PVC Paint which is available in aerosol cans.

Covershield is our bed liner paint which provides a tough protective coating and is tintable so offers a vast range of colours.

An example of the finish obtainable using Covershield. Ideal for pick up trucks and any vehicle used off road.

2K Anti - Corrosion Paint

2K Polyurethane paint is a single stage anti corrosive paint that dries a durable satin / semi-gloss finish. It has good chemical resistance making it ideal for a wide range of commercial and industrial uses, such as skips, steel beams, iron gates, metal frame and much more. It also offers direct adhesion to iron, stainless steel, galvanised metal, cast iron, electrozinc, ABS plastic, PVC, Methacrylate and Gel coat. We can mix this paint in most RAL & British Standard colours.

Aerosols , 5 Litre Kit, 1.25 Litre Kit, 5 Litre Paint Only,
2.5 Litre Paint Only, 1 Litre Paint Only, 1 Litre Hardener Only

Anti- Graffiti Paint

2K Acrylic Anti-Graffiti Paint Gloss 7.5Litre Kit (Mixing Ratio 2-1)

This paint is extra hard wearing and can be applied onto any commonly graffited surface such as signs, doors, walls, trains etc offering a long term protection. If the paint surface gets vandalised you can simply wash off with either a jet wash or hot soapy water without affecting the paint underneath. Fly posters with not stick properly making removal effortless. We can mix this in any RAL or BS colour, we can also supply in clear.

Drying @ 20*c

- Handling 2h30 – 3hours
- Through Dry 5hours – 5.30hours

[Available here](#) 7.5litre Kit

Bumper Paint

Roberlo Bumper Paint 1Litre

Flexible and multifunctional coating for automotive plastics, especially on bumpers.

Allows different textures according to application. Ready for use.

Colour choice Black, Anthracite and Grey

Covershield - Bed Liner Paint

Cover Shield Liner is a Tough 2K Acrylic polyurethane coating. (Mixing Ratio 3-1) Both its high mechanical and chemical resistance make it an ideal product for coating the visible parts of trailers, pickups or other visible surfaces that may be exposed to more extreme conditions, both physical and environmental. Although its most popular and well-known use is as a coating for visible areas on pickup trucks, its versatility makes it an ideal product for many other applications. This product is perfectly suited to any industrial application owing to its technical characteristics and large containers. Available in a wide range of colours including tintable allowing you to match any required colour. Its main features are:

- A textured appearance that is easy to personalise.

- High mechanical resistance (to abrasion and scratches, impact, etc.).
- High chemical resistance (water, engine oil, fuels, slat and many more).
- Corrosion protection.
- Weather resistance and UV protection.

Covershield - Bed Liner Paint

- High hardness and flexibility.
- Excellent adherence on different surfaces.
- Applied coating resistant up to 185°F.

Examples of Covershield finish

Chlorinated Rubber Paint

Chlorinated Rubber Paint is very water resistance and is often used for swimming pools. Alkyd resin binder with chloro-rubber, providing satin finishing with excellent water resistance.

We can mix any RAL or British Standard BS381C , BS4800 colour in this material.

[Available here](#) in 1 Litre, 2.5 Litre, 5 Litre

Vinyl Paint

Most commonly used for lorry curtains but can be used on many substrates such as canopies and awnings.

We can mix any RAL or British Standard Colour in this Material,

Single-component acrylic resin based binder with a semi-gloss finish. It is very fast-drying and very flexible.
