

## 2K Fluorescent

Date: 06-03-2019

Page: 1

### DESCRIPTION

Special FX Fluorescent 2K Direct Gloss is an ultra-bright high light absorbent colour for car, commercial and industrial use. These colours match Ral colour codes. With these colours being so sensitive to light they will degrade over a period of time. To prevent these colours from degrading we recommend using the Special FX UV absorber additive to protect the pigments and/or the use of good quality Clearcoats. See the colour chart for sample colour. For best results and longevity, we recommend using Basecoat and clearcoat.

**Mix Ratio** Mix by volume, 2 parts of Special FX fluorescent 2K to 1 part Hardener. 10% Special FX UV Additive  
100:50+10%

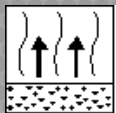

**Spraying viscosity**  
Part A 100-150 s (DIN4/20°C)

**Spraygun tips**  
1.2-1.3 mm - 2 bar/32 psi at the air inlet. For best results RP or HTE spray guns should be used.

**Number of coats:**  
Apply 2 full coats for normal coverage (ensure white ground coat has been applied)

**Flash off time**  
Between coats: 5 min (until tacky)  
Before bake: 10 min

### GENERAL NOTES

Colour checking: Colour checking is required before painting of all colours.

### IMPORTANT NOTES

We recommend using the Special FX UV additive for maximum protection. These colours will fade over time. Colours can appear patchy if applied incorrectly. Use RP or HTE spray guns for best results.

Colour	Ral Reference
Luminous Yellow	1026
Luminous Green	6038
Luminous Orange	2005
Luminous Bright red	3026
Luminous Red	3024
Luminous Pink	N/A
