</tr>
</tbody>
</table>

3. HAZARD IDENTIFICATION

Limited evidence of a carcinogenic effect.
Toxic: Danger of very serious irreversible effects through inhalation, in contact with skin and if swallowed.
Solvent will have a defatting action on the skin making it more susceptible to dermatitis and sensitisation. Inhalation of vapours may cause headaches or dizziness.

4. FIRST AID MEASURES

**First Aid - Inhalation**
If breathing stops or shows signs of failing, give artificial respiration. Obtain medical attention urgently.

**First Aid - Skin**
Wash with plenty of soap and water. If irritation persists, seek medical advice.

**First Aid - Eyes**
Flush eyes immediately with plenty of water for at least 15 minutes. Seek medical attention immediately.

**First Aid - Ingestion**
Rinse mouth with water then give plenty of water to drink. Do not induce vomiting. Obtain medical attention urgently.

5. FIRE FIGHTING MEASURES

If product is involved in fire extinguish with dry powder, foam or carbon dioxide.
6. ACCIDENTAL RELEASE MEASURES

Ensure adequate ventilation. Wear protective clothing and suitable respiratory protection. Avoid contact with skin and eyes and avoid inhalation of vapours. Try to prevent the material from entering drains or water courses. Contain spillage, and absorb onto an inert absorbent such as sand or multisorb and place in a sealed container for supervised disposal.

7. HANDLING AND STORAGE

Handling
Handle and open with care: pressure may occur if the container is stored in a warm area. Wear suitable protective clothing, gloves and safety glasses. Avoid inhaling vapour. Avoid sources of ignition - no smoking. Use product in well ventilated area.

Storage
Keep in a dry, cool and well-ventilated place. Keep away from sources of ignition.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational exposure limits
Methylene Chloride
ACGIH: TLV 50ppm 8h TWA.
HSA (2003).C.O.P.: OEL 100ppm, (350mg/m3) 8h TWA
HSA (2003).C.O.P.: OEL 300 ppm, (1050 mg/m3) 15 min exposure limit.

Methanol
ACGIH: STEL 0ppm 15min TWA.
ACGIH: TLV 200ppm (262mg/m3) 8h TWA.

Good industrial hygiene practices should be observed. Ensure adequate ventilation to maintain airborne concentration below OEL. Avoid inhalation of vapour. Avoid contact with skin, eyes and clothing. Wear suitable protective clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State
Viscous liquid.

Colour
Clear Colourless.

Odour
Strong Characteristic.

pH
Not measurable.

Boiling Range/Point (°C)
38-47

Flash Point (CC) (°C)
None.

Specific Gravity
No data.

Solubility in Water (kg/m³)
Slightly soluble

Solubility in Acetone
Soluble

Vapour Pressure(mmHg @ 25°C)
300 mmHg at 20 °C.

Explosion Limits (%)
None.

10. STABILITY AND REACTIVITY
The product is relatively stable under normal conditions of use. The primary component (methylene chloride) will decompose on red hot surfaces, in electric arcs or naked flame to evolve predominately hydrochloric acid and a trace amount of phosgene gas.
11. TOXICOLOGICAL INFORMATION

Inhalation
Toxic by inhalation. This product contains a volatile solvent, methylene chloride, which is a Category 3 Carcinogen, which means there is no evidence of carcinogenicity in humans and limited evidence in animal inhalation studies. Exposure to significant vapour concentrations or ingestion of large quantities can take some time to eliminate from the body. Large concentrations can be fatal due to CNS effects.

Skin
Toxic in contact with skin. Solvent may remove essential oils from the skin making it susceptible to attack from other chemicals.

Eyes
Contact with eyes will cause irritation.

Ingestion
This product is considered toxic if swallowed. This product contains methanol which if ingested is slowly metabolised to Formaldehyde and Formic acid which may cause damage to the optic nerve leading to blindness.

12. ECOLOGICAL INFORMATION

The product should not go into drains or surface water. May cause long-term adverse effects in the aquatic environment.

13. DISPOSAL CONSIDERATIONS
Dispose of in accordance with local and national regulations. Incinerate or bury in legal landfill.

14. TRANSPORT INFORMATION

| UN Number | 2810 |
| AIR (IATA) | Toxic liquid, organic, n.o.s, Class 6.1, Pkg. Grp. III |
| Sea (IMO) | Toxic liquid, organic n.o.s, Class 6.1, Pkg. Grp. III EmS F-A,S-A. |
| Road (ADR)/Rail(RID) | Toxic liquid, organic, n.o.s (methylene chloride and methanol), Class 6.1, Packaging Group III Classification code: T1 |

15. REGULATORY INFORMATION

Contains
Dichloromethane and Methanol

Labelling Information
Toxic

R phrases

S phrases
S23 Do not breathe vapour. S24/25 Avoid contact with skin and eyes. S36/37 Wear suitable protective clothing and gloves. S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). S51 Use only in well ventilated areas.
15. REGULATORY INFORMATION

16. OTHER INFORMATION

MSDS data revised 27 October 2004

Hazardous Components in Product for EC

<table>

- R11 Highly flammable.
- R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.
- R39/23/24/25: Toxic: Danger of very serious irreversible effects through inhalation, in contact with skin and if swallowed.
- R40 Limited evidence of a carcinogenic effect.
