

ProBuild

Product Description

ProBuild primer/surfacer combines ultra high filling properties with very quick drying times. This results in an easily sanded non-porous surface that's suitable for any topcoat. Available in grey, beige and white.

Product Features

- Super build primer
- Very fast drying
- Easy to sand, both wet and dry
- Smooth non-porous finish
- Good adhesion onto bare metal
- Can be over coated with any topcoat
- (Water based or solvent based)
- Two nozzles for your convenience

Usage

ProXL aerosols are the ultimate method for the refinishing of small vehicle repairs. They provide economical use of production time and manpower.

Pre Treatment

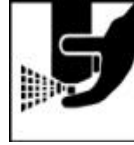

The surface must be clean, dry and dust-free

Application

Before use, shake the aerosol for 2 minutes and spray a sample area. The drying time depends on ambient temperature, humidity of air and thickness of coating applied

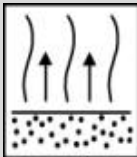

After use turn aerosol upside down, press the nozzle for approx 5 seconds, and clear valve.

Apply in cross coats from distance of 250mm from object.

Product Properties

Allow 3 - 5 minutes between coats

Infrared compatible

Overcoatable after 15-30 minutes.

Sandable with P400-P500
